-Beautiful- the art and dance echo each other and then merge in your mind- you see the dance in the artwork and the artwork in the movement

-Great! Brilliant devices. Delighted to have the music coming from inside themselves and through each other

-Very good. The overlays of movement, live and film, and frozen in charcoal and paint

-Exhibition is so professional, big visual impact- so immediate. Wonderful collaboration- charcoal reminiscent of Henry Moore – painting so vibrant

-So very beautiful. Interesting and colourful.

-Amazing atmosphere and texture in the paintings.

-Wonderful! To have this work in Derry!

-This was very inspiring. Mind blowing!

-Absolutely excellent impact- I was surprised

-Beautiful! Real life in colour!

-Delicate, sweet, poetic, feminine, and lovely contrast with the bold lines of charcoal. Stunning. Thank you!
